

ORMOND CIVIL
- PTY LTD -

Tunnelling

Ormond Civil is a family-owned Sydney-based business with over 20 years of expertise in tunnelling and civil construction. We specialize in a range of shoring and stabilization projects, including piling, anchoring, shotcrete and formwork in tunnelling works.

Our team includes skilled engineers and professionals focused on enhancing efficiency, productivity, and service quality.

As industry leaders, we deliver innovative, cost-effective solutions tailored to client needs. Ormond Civil has a proven track record of delivering high-quality tunnelling projects on time, within budget, and with meticulous attention to detail. No project is too complex for our team to meet and exceed client expectations.

With our experience and dedication, we are ready to deliver reliable, high-quality tunnelling solutions for your next project.
